

An Understated Dominance By Marina Vittori

Chapter 1960

"Senior Ruso, it seems that the trapped dragon rope in your hand is of no use." Dustin said with a half-smile.

The trapped dragon rope was fine for subduing and binding the black panther monster, but it had no effect on the yellow giant python.

In other words, there is no way to start.

"This evil beast! How dare you hunt my mount? I have to destroy it!"

Billy Ruso felt a little embarrassed.

Just when he was about to take action and kill the giant yellow python.

The sudden change.

They saw a huge black shadow in the sky, suddenly passing over everyone's heads.

The black shadow is a huge giant eagle, completely black, with feathers like steel, and when its wings are spread out, it is more than ten meters long.

At first glance, it looks like a passenger plane.

The giant eagle was extremely fast. It rushed down from high altitude and covered hundreds of meters in the blink of an eye.

Wherever it passed, strong winds roared, trees fell, and sand and rocks flew.

"Hoo——!"

The strong wind stirred up by the giant eagle made everyone stagger, and unable to stand firmly.

"Hard!"

The black giant eagle roared, and suddenly pounced on the yellow giant python, and grabbed it with two huge steel-like claws.

"Empty!"

Seeing that the giant yellow python couldn't dodge, it could only quickly open its mouth and spit out a mouthful of black poisonous mist.

However, the black giant eagle seemed to have expected it. The moment the poisonous mist was sprayed out, its huge wings shook violently.

The powerful hurricane blew away the poisonous fog in an instant.

Taking this opportunity, the black giant eagle's claws grabbed the yellow giant python hard.

The half-meter-long sharp nails easily pierced the python's scales and penetrated deep into its flesh.

In pain, the giant yellow python twisted and struggled wildly, but it could not escape its restraints.

"Hard!"

The giant black eagle roared again, its wings shaking rapidly, launching raging hurricanes.

Its huge body immediately rose from the ground, and together with the giant yellow python, it quickly flew into the sky.

The yellow python tried to resist, but the black eagle pecked its head with its long beak, opening a huge bloody hole on the spot.

After the giant yellow python twitched a few times, it completely stopped moving.

The giant black eagle just grabbed its prey and left gracefully.

The whole process happened very quickly, so fast that it only took a few seconds from the appearance of the giant black eagle to the departure of the hunter.

As a result, no one present could react for a moment.

No one expected that such a situation would occur?

They thought that the giant python was the final winner, a strange beast that stood at the top of the food chain. They never thought that the giant python that was majestic just now would become the prey of the black giant eagle in the blink of an eye.

As the saying goes, the mantis stalks the cicada, but the oriole stalks behind.

In this oasis, the identities of hunter and prey change at any time.

One moment he was a hunter, and the next moment he was a prey.

When the black panther hunted the antlered monster, he did not expect to be targeted by the giant python. Similarly, when the python hunted the black panther, he did not expect that there was a more powerful giant eagle hidden in the sky.

In just a few minutes, everyone witnessed a cruel law of the jungle.

No creature is safe here.
