"Spit it out. What do you want to do?"  
Sean wanted to hear what Rose had in  
mind.

Rose leaned into Sean's ear and  
whispered something.

"No! D\*mned old woman, you're too  
vicious!" Sean raised his hand and  
slapped Rose in her face again.

### Chapter 1846

Rose was enraged after being slapped by  
Sean. If they were not at Old Master  
Shaw's funeral, she truly wanted to  
exchange blows with Sean and settle  
scores with him in broad daylight.  
However, she only pointed at Sean's nose

and scolded him angrily, "Sean Ford! Don't think I don't know about all those dirty things you've done! You and Jennie Gibson! What have the two of you done? Do you think an old woman like me doesn't know about it? I'm telling you. I knew about it all very well! It's just that I'm already old, and I don't have my children and my family to back me up. I have no one to rely on. Therefore, I had no choice but to endure it! Since things have already come to this point, I am a lonely old lady, so even if I am finished by a junior, it's also a person who has no blood relations with me. I deserved it! But what about you? Haha. I curse you..."

Seeing Rose was so vicious, Sean suddenly hesitated. What his wife said seemed to be right. However, he still could not be heartless and make up his mind. Hesitantly, he said, "Aino is still just a child..."

Rose's tone softened. "It's because she is

a child, that's why it's easier for us to deal with her. Now, Sabrina has already been abducted. There is almost no chance of her coming back anymore. Therefore, now is the time when Sebastian and Aino are the weakest. If we could properly deal with Aino, and then let Maysun become Sebastian's wife, then the Kemp family will also be very grateful to us after Maysun and Sebastian had a child in the future. Not just the Kemp family, but Maysun also will be grateful to us. When they have their child, we will be the closest grandpa and grandma to the child. Sean, both of us are already in our seventies. How many years do we have left to enjoy? Can't we just live for ourselves for once?"

Sean was speechless. What his wife said hit him straight in the heart over and over again. In fact, his wife was right. If Sabrina had not been meddling in between them, then as Sebastian's father, Sean and Sebastian's relationship would

not have been so strained. Perhaps if Sebastian had married a graceful young lady from a good family, then things would not have turned out like that. ①

Sean had originally tried to see if Sabrina and people in the Ford residence could get along peacefully. However, when Sean thought back on Sabrina and Old Master Shaw's relationship, he realized that Sabrina was still giving Old Master Shaw the cold shoulder. That was her grandfather. There was also Lincoln Lynn. Sean heard that Lincoln had come to look for Sabrina earlier on, and he asked for Sabrina's forgiveness while covered in tears and snorts. However, Sabrina had never given in.

One was her own father, and the other was her grandfather. They were people who had such blood relations with her, but Sabrina still did not forgive him, let alone her parents-in-law? All Sean could think of was that if they did not take the

Sean nodded thoughtfully and then he called for the family's housekeeper. "There shouldn't be many guests coming today. Even if they were coming, I'm guessing that they will only be here for a while. It's still very early now. You shall be here to greet the guests first. We'll be going in to mourn."

"Yes, Sir and Madam," answered the housekeeper.

Both Sean and Rose went in at the same time, but they did not go to mourn. Instead, they came directly straight to Maysun.

"Mister Ford and Madam Ford," Maysun called out in fright.

Rose held Maysun's hand. "Maysun, let m

called out in fright.

Rose held Maysun's hand. "Maysun, let me tell you this. Sebastian is now at his weakest. His temper is quite bad these few days, you have to bear with him a little. If you can make him take you into his heart when he is at his weakest, then the entire Ford Group would be yours in the future. You will be the first lady of the South City for sure."

"It's better than you looking around, and not finding a suitable man when you're already twenty-nine, right?"

Maysun immediately nodded. "Mm-hmm. I got it, Madam Ford. I understand."  
"

"So, don't care what Aino said, alright?"
